The 20-year wait for Clean Water is finally over for villagers in Ranau, Sabah

Tanggungjawab Sosial Korporat Etiqa

Bantu ringankan beban penduduk Kampung Kigiok-Solong Ranau

KEMELUT penduduk Kampung Kigiok-Solong Ranau selesai dan kini boleh menarik nafas lega dengan perlaksanaan Projek Bekalan Air Bersih Etiqa.

Projek ini merupakan Program Tanggungjawab Sosial Korporat Etiqa yang dilaksanakan dengan kerjasama Islamic Aid Malaysia (IAM) bertujuan untuk menamatkan kemelut bekalan air bersih serta membantu meringankan beban penduduk setempat.

Sejak lebih 20 tahun yang lalu, penduduk Kg Kigiok-Solong bergantung kepada sumber bekalan air bukit daripada anak sungai berhampiran.

Kemelut masalah kekurangan bekalan air berikutan peningkatan drastik jumlah penduduk terutamanya kerana pembinaan sekolah berasrama penuh berhampiran kampung itu beberapa tahun lalu.

Masalah ini ditambah dengan keadaan paip yang lama telah uzur dan sering bocor sentiasa menimbulkan masalah kekurangan air kepada penduduk khususnya di musim kemarau apabila tekanan air yang turun dari anak sungai berdekatan terlalu rendah untuk disalurkan ke rumah-rumah penduduk kampung.

Proses penampahbaikan ini melibatkan pemasangan paip baru sejauh hampir 9 kilometer, termasuk pembinaan tangki air graviti yang dilengkapi sistem penapis air membran atau Membrane Water Filter System bagi memastikan kualiti air yang disimpan sentiasa dirawat dan tidak tercemar.

Stand pipe juga turut dibina berhampiran rumah pam bagi memberi kemudahan kepada penduduk kampung untuk mengambil air secara terus dari tangki simpanan.

Perasmian Projek Bekalan Air Bersih Etiqa ini telah disempurnakan oleh Ketua Pegawai Eksekutif Wilayah Sabah Etiqa Insuran dan Takaful, Aldo Kok dan disaksikan dengan Presiden Islamic Aid Malaysia (IAM), Zawahir Abdullah.

Agak menarik, dalam majlis ini turut diadakan majlis penyerahan bantuan sebanyak 250 bakul makanan kepada penerima dari sekitar kawasan Kg. Kigiok-Solong Ranau dan kanak-kanak lingkungan 6 tahun ke 11 tahun dirai melalui Program Back To School tahun 2023 iaitu penyerahan sebanyak 100 beg beserta alat tulis.

Turut hadir bersama Director of Agency Malaysia East Etiqa Insuran and Takaful, Adrian Desmond Zainal Khong, wakil Islamic Aid Malaysia (IAM) Sabah, Ustaz Roslan Awang, Pengerusi JPKK Kg Kigiok, Jasnih Bin Litah, Ketua Kg Kigiok, Ahidi Kasaman dan masyarakat setempat.

RASMI ... Perasmian Projek Bekalan Air Bersih Etiqa disempurnakan oleh Aldo Kok dan disaksikan oleh Zawahir Abdullah.

SERAH ... Penyerahan simbolik mock Program Air Graviti Etiqa 2023 disampaikan Aldo Kok kepada Ketua Kg. Kigiok, Ahidi Kasaman.

KEMUDAHAN ... Aldo Kok bersama Zawahir membuka pili paip air tangki dan melihat sendiri air yang telah melalui proses Membrane Water Filter System.

BANTUAN ... Penyerahan simbolik bantuan kepada masyarakat berupa pek makanan dan wang tunai disampaikan oleh Adrian Desmond Zainal Khong bersama Aldo Kok.

SUMBANGAN ... Simbolik penyerahan sebanyak 100 beg beserta alat tulis kepada anak-anak Kg Kigiok-Solong Ranau disempurnakan oleh Aldo Kok.

KENANGAN ... Gambar kenangan masyarakat Kg Kigiok-Solong Ranau bersama Aldo Kok dengan Zawahir Abdullah.

AKHBAR KEBANGSAAN BEBAS DI MALAYSIA TIMUR

Lebih 1,000 penduduk Ranau terima bekalan air bersih

Clarence Dol

RANAU: Lebih 1,000 penduduk kampung Kg Kigiok-Solong kini dapat menikmati bekalan air bersih untuk menampung keperluan harian mereka selepas projek Air Bersih Etiqa siap dan dilancarkan di sini, pada Sabtu.

Dibiayai oleh Etiqa dan dilaksanakan dengan kerjasama Islamic Aid Malaysia (IAM), usaha untuk menyediakan bekalan air bersih bagi Kg Kigiok-Solong adalah sebahagian daripada tanggungjawab sosial korporat (CSR) Etiqa ke arah kehidupan sihat, di bawah program utama Etiqa Cares.

Sejak 20 tahun lalu, penduduk di sini terjejas teruk akibat kekurangan bekalan air. Tekanan air untuk kampung sentiasa rendah, dan masalah ini bertambah buruk semasa musim kemarau apabila tiada air sama sekali.

Sistem paip sedia ada sudah lama dan rosak, dengan semakin ramai penduduk kampung mengalami gangguan dalam aktiviti harian mereka seperti memasak, mandi dan membasuh pakaian.

Bagi menyelesaikan masalah air di kampung itu, Etiqa memasang dua tangki silinder 2,000 gelen dengan pam elektrik dan sistem penapisan membran untuk memastikan air yang sampai ke setiap rumah telah dirawat.

Paip sepanjang sembilan kilometer juga telah dipasang untuk menyambungkan air dari kawasan tadahan ke setiap rumah. Paip menegak telah diletakkan berhampiran rumah pam bagi membolehkan penduduk kampung mengambil air terus dari tangki.

Projek ini berjaya disiapkan dalam tempoh dua bulan bersama penduduk kampung dan sukarelawan IAM.

Majlis pelancaran disempurnakan oleh Ketua Pegawai Eksekutif Etiqa Wilayah Sabah, Aldo Kok, serta Presiden IAM, Zawahir Abdullah sambil disaksikan penduduk kampung.

ZAWAHIR, Aldo dan sebahagian daripada penduduk kampung bergambar bersama di hadapan tangki dan rumah pam sumbangan Etiqa itu.

Aldo berkata, "Etiqa berbesar hati dapat bekerjasama dengan IAM dalam projek khas ini. Kami berharap dengan sistem rawatan air yang disediakan, penduduk kampung tidak perlu risau lagi terdedah kepada air tercemar. Kami juga berharap projek itu dapat memudahkan mereka menikmati bekalan air bersih yang mampan untuk aktiviti harian mereka sepanjang tahun. Kami berharap sistem air ini akan dijaga dengan baik agar penduduk kampung dapat menikmati air bersih selama bertahun-tahun akan datang.

"Selaras dengan visi kami 'Menjadikan Dunia Tempat yang Lebih Baik', Projek Air Bersih Etiqa adalah bukti komitmen kami untuk berkhidmat kepada masyarakat dengan memperbaiki kehidupan dan menaikkan taraf masyarakat dari segi sosial dan ekonomi, dengan tumpuan kepada komuniti yang kurang bernasib baik di seluruh negara," tambahnya.

Sementara itu, Zawahir berkata, "IAM memainkan peranan penting dalam membawa bersama individu dan syarikat yang ingin menghulurkan usaha kemanusiaan dan kebajikan dalam membantu mereka yang memerlukan.

"Kami berbesar hati berpeluang bekerjasama dengan Etiqa bagi melaksanakan projek yang bermakna dan berguna kepada penduduk di sini. Ini adalah bukti keprihatinan Etiqa dalam meningkatkan taraf hidup masyarakat di Malaysia.

"Saya berbangga untuk menyatakan bahawa penduduk di sini bersatu padu dan mempunyai tahap kerjasama yang tinggi untuk menjayakan projek ini. Saya mengharapkan bekalan air bersih ini berterusan bagi penduduk kampung ini," katanya.

Dalam majlis perasmian yang diadakan di Mini Dewan Kesoga Kigiok itu, Etiqa dan IAM turut mengagihkan sumbangan berupa barangan makanan dan wang tunai kepada penduduk kampung.

Clean water for 1,000 Ranau folks, finally

RANAU: More than 1,000 villagers in Kg Kigiok-Solong can now enjoy clean water daily due to Etiqa's Clean Water project.

Funded by Etiqa and implemented in collaboration with Islamic Aid Malaysia (IAM), the undertaking is part of Etiqa's corporate responsibility (CR) commitment towards healthy living, under its Etiqa Cares flagship programme.

For the past 20 years, the villagers here have been severely impacted by the lack of water supply. Water pressure for the village is constantly low, and the problem is amplified during the dry season when there is no water at all.

The existing piping system is old and damaged, with the growing number of villagers disrupting their activities such as cooking, bathing and washing clothes.

To resolve the village's water woes, Etiqa installed two 2000-gallon cylindrical tanks with electric pumps and a membrane filtering system to ensure that only treated water reaches their homes.

Nine kilometres of pipes have also been laid to connect water from the catchment area to their homes. Standpipes have been placed near the pump house to enable villagers to take their supplies directly from the tanks.

The project was successfully completed within two months with the help of villagers and volunteers from IAM.

The launch was officiated by Regional Chief Executive Officer, Sabah Region, Etiqa, Aldo Kok and President of Islamic Aid Malaysia, Zawahir Abdullah, while witnessed by villagers.

Aldo said, "Etiqa is pleased to work with IAM on this special project. We hope that with the water treatment system provided, villagers no longer have to worry about being exposed to polluted water.

"We also hope the project can facilitate them to enjoy a sustainable supply of clean water for their daily activities throughout the year. We hope that the system will be well taken care of so that the villagers will be able to enjoy clean water for many years to come.

"In line with our vision of 'Making the World a Better Place', Etiqa's Clean Water Project is testament of our commitment to serving the society by improving lives and uplifting the community socially and economically, with a focus on the underprivileged community across the country," he added.

Zawahir said, "IAM plays a key role in bringing individuals and corporations wishing to extend humanitarian and welfare efforts in assisting those in need, together.

"We are pleased to have the opportunity to work with Etiqa to implement a meaningful and useful project for the residents here. This is proof of Etiqa's concern in improving the standard of living of the communities in Malaysia.

"I am proud to say that the people here are united and have a high level of co-operation to make this project a success. I look forward to a continuous supply of clean water for the people of this village," he said.

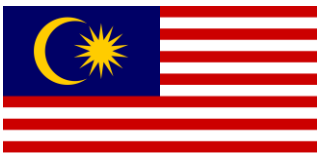

In the officiating ceremony held in Mini Dewan Kesoga Kigiok, Etiqa and IAM also distributed donations in the form of food items and cash to the villagers here.

Etiqa launches the country's first online Takaful plan that covers persons with disabilities

i-Care OKU pelan perlindungan setahun

Kuala Lumpur: Etiqa Family Takaful Bhd melancarkan i-Care OKU, pelan Takaful dalam talian pertama yang menyediakan perlindungan setahun untuk orang kurang upaya (OKU).

Ketua Pegawai Eksekutif Zafri Ab Halim berkata, melindungi mereka yang cacat penglihatan, pendengaran, pertuturan dan/atau fizikal, i-Care OKU juga direka khas untuk memudahkan permohonan dibuat dan tanpa pemeriksaan kesihatan diperlukan.

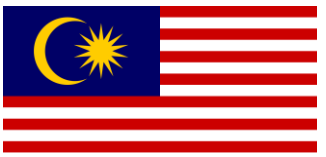

"Dengan i-Care OKU, pemohon tidak perlu mengemukakan laporan perubatan. Sebaliknya, mereka perlu menjadi pemegang kad OKU yang dikeluarkan oleh Jabatan Kebajikan Masyarakat.

"Sumbangan untuk pelan ini adalah berpatutan bermula daripada serendah RM0.33 sehari untuk perlindungan sehingga RM40,000 dan mereka perlu memperbaharui pelan itu setiap tahun," katanya pada sidang media selepas pelancaran i-Care OKU, baru-baru ini.

Program itu dilancarkan oleh Ahli Dewan Negara Malaysia dan Pengasas OKU Sentral Senator Datuk Ras Adiba Radzi.

Etiqa launches the country's first online Takaful plan that covers persons with disabilities

First online takaful plan for PwD launched

First online takaful plan for PwD launched

KUALA LUMPUR: Etiqa Family Takaful Bhd has launched i-Care OKU, the first online takaful plan that provides one-year coverage for persons with disabilities (PwD).

Chief executive officer Zafri Ab Halim said i-Care OKU, which covers those with visual, hearing, speech and/or other physical disabilities, has been designed to make application easy with no medical check-ups required

"With i-Care OKU, applicants will not be required to submit a medical report. Instead, they need to be holders of an OKU card issued by the Social Welfare Department.

"The contribution is also affordable starting from as low as 33 sen a day for coverage of up to RM40,000, and they need to renew the plan on a yearly basis," he said after the launch of i-Care OKU by member of the Upper House and OKU Sentral founder Senator Datuk Ras Adiba Radzi yesterday.

Zafri said other benefits include daily hospital allowance of up to RM55 per day upon hospitalisation, death benefit that covers funeral expenses, and medical reimbursement benefit of up to RM400 for medical treatment due to accidents.

Under the special care benefit, the certificate holder will receive cash upon diagnosis of dengue, Covid-19 or any communicable disease that requires quarantine order in Malaysia.

Moreover, applicants with more than one disability are also eligible to apply for the plan, as i-Care OKU allows PwD with maximum of two disabilities to participate, he said.

However, their disabilities should be a combination of a physical disability and either a hearing, visual, or speech disability.

Meanwhile, Ras Adiba said while there are an estimated 4.9 million PwD in the country, only 619,273 have registered with the Social Welfare Department.

"Among the biggest difficulties for the PwD is to obtain insurance, especially for ward admission and surgery, unlike the able-bodied.

"Thankfully, the product launch is an effort in that direction. For years, my activist friends and I have done our level best to get insurance companies to open their minds and give a little consideration to us (PwD)."

Ras Adiba said it is hoped that other insurance companies will emulate Etiqa, which is providing coverage for different categories of disabilities under its plan, by offering convenience or benefits to the PwD group.

"Maybe not everyone can afford to obtain insurance, but I advise those with disabilities to seek advice from Etiqa, as the contribution for the plan is not expensive and payment is made only once a year," she added.

Etiqa launches online takaful plan for persons with disabilities

08/11/2022 02:21 PM

KUALA LUMPUR, Nov 8 (Bernama) -- Etiqa Family Takaful Bhd has launched i-Care OKU, the first online takaful plan that provides one-year coverage for persons with disabilities (PwD).

Chief executive officer Zafri Ab Halim said i-Care OKU, which covers those with visual, hearing, speech and/or other physical disabilities, has been designed to make application easy with no medical check-ups required

"With i-Care OKU, applicants will not be required to submit a medical report. Instead, they need to be holders of an OKU card issued by the Department of Social Welfare.

"The contribution is also affordable starting from as low as RM0.33 a day for coverage of up to RM40,000 and they need to renew the plan on a yearly basis," he told a press conference after the launch of i-Care OKU by Member of the Upper House and OKU Sentral founder Senator Datuk Ras Adiba Radzi today.

Zafri said other benefits include daily hospital allowance of up to RM55 per day upon hospitalisation, death benefit that covers funeral expenses, and medical reimbursement benefit of up to RM400 for medical treatment due to accidents.

Under the special care benefit, the certificate holder will receive cash upon diagnosis of dengue, COVID-19 or any communicable disease that requires quarantine law in Malaysia.

Moreover, he said, applicants with more than one disability are also eligible to apply for the plan, as i-Care OKU allows PwD with maximum of two disabilities to participate.

However, their disabilities should be a combination of a physical disability and either a hearing, visual, or speech disability.

Meanwhile, Ras Adiba said while there are an estimated 4.9 million PwD in the country, only 619,273 have registered with the Social Welfare Department.

"Among the biggest difficulties for the PwD is to obtain insurance especially for ward admission and surgery, unlike the able-bodied.

"Thankfully, the product launched today is an effort in that direction. For years, my activist friends and I have done our level best to get insurance companies to open their minds and give a little consideration to us (PwD)," she said.

Ras Adiba said it is hoped that other insurance companies will emulate Etiqa, which is providing coverage for different categories of disabilities under its plan, by offering convenience or benefits to the PwD group.

"Maybe not everyone can afford to obtain insurance, but I advise those with disabilities to seek advice from Etiqa, as the contribution for the plan is not expensive and payment is made only once a year," she added.

i-Care OKU by Etiqa is available for purchase online via the Etiqa website starting today.

Etiqa lancar pelan Takaful dalam talian lindungi OKU

Oleh Azhar Shahrulnizam
November 8, 2022 @ 3:04pm
bhnews@bh.com.my

KUALA LUMPUR: Etiqa Family Takaful Berhad (Etiqa) melancarkan pelan Takaful dalam talian yang pertama seumpamanya dalam menyediakan perlindungan setahun bagi orang kurang upaya (OKU).

i-Care OKU melindungi individu cacat penglihatan, pendengaran, pertuturan serta fizikal. Pelan itu juga direka bagi memudahkan permohonan dibuat tanpa memerlukan pemeriksaan kesihatan.

Pemohon tidak perlu mengemukakan laporan perubatan, sebaliknya hanya perlu berdaftar sebagai pemegang kad OKU yang dikeluarkan Jabatan Kebajikan Masyarakat (JKM).

i-Care OKU membolehkan OKU dengan maksimum dua ketidakupayaan untuk menyertainya.

Bagaimanapun ketidakupayaan mereka perlu terdiri daripada gabungan kecacatan fizikal seperti masalah pendengaran, penglihatan ataupun pertuturan.

Ahli Dewan Negara, Datuk Ras Adiba Radzi, berkata insurans adalah antara perkara yang memang diperlukan oleh komuniti OKU.

"i-Care OKU ini adalah satu insurans dikhaskan untuk komuniti OKU. Sebelum ini, orang bukan OKU mudah untuk mendapatkan insurans tetapi untuk kami sebaliknya, terutama insurans bagi membiayai pembedahan dan juga penempatan di hospital.

"Setiap daripada kita akan menjadi OKU satu hari nanti. Mata akan menjadi semakin kabur, pendengaran akan berkurangan. Saya sendiri menjadi OKU di pertengahan hidup saya. Kami tak mahu simpati, kami mahu dilihat setaraf, sama seperti orang lain. Produk hari ini adalah permulaan," katanya ketika merasmikan i-Care OKU di Dataran Maybank, Bangsar.

Yang turut hadir Pengerusi Etiqa, Datuk Majid Mohamad dan Ketua Pegawai Eksekutif Kumpulan Etiqa Insurance, Kamaludin Ahmad.

Sebagai pelan Takaful Keluarga yang direka khas untuk golongan OKU, sumbangan pelan itu bermula daripada 33 sen sehari untuk perlindungan sehingga RM40,000.

Pemegang sijil hanya perlu membayar sekali sahaja dalam masa setahun.

Pemegang sijil Takaful turut menerima wang tunai jika didiagnosis denggi, COVID-19 dan sebarang penyakit berjangkit yang memerlukan kuarantin mengikut undang-undang di Malaysia.

Elaun hospital harian, perlindungan kematian serta faedah pembayaran balik perubatan akan diberikan.

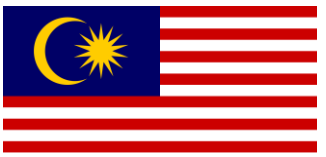

i-Care OKU daripada Etiqa boleh dibeli secara dalam talian menerusi laman web Etiqa bermula hari ini.

Untuk maklumat lanjut pengguna boleh berhubung di talian 1-300-13-8888.

Etiqa app extends reach to 1,600 hospital, clinics

By The Manila Times
November 21, 2022

THE Smile PH 3.0 app relaunched by Etiqa Philippines can now give its group health insurance clients access to its extensive medical network of 30,000 doctors and 1,600 accredited hospitals and clinics nationwide.

The unified omnichannel app from the insurance technology company also makes the process of filing medical reimbursement claims 50 percent faster. In addition, clients can conveniently view their and their dependents' coverage plus request letters of guarantee.

"Through the unified Smile PH 3.0 app, which can be easily downloaded from Google Play Store and App Store, they can avail of our services swiftly and promptly," said Ariel Meneses, senior vice president and head of operations and service excellence at Etiqa Philippines.

THE Smile PH 3.0 app relaunched by Etiqa Philippines can now give its group health insurance clients access to its extensive medical network of 30,000 doctors and 1,600 accredited hospitals and clinics nationwide.

The unified omnichannel app from the insurance technology company also makes the process of filing medical reimbursement claims 50 percent faster. In addition, clients can conveniently view their and their dependents' coverage plus request letters of guarantee.

"Through the unified Smile PH 3.0 app, which can be easily downloaded from Google Play Store and App Store, they can avail of our services swiftly and promptly," said Ariel Meneses, senior vice president and head of operations and service excellence at Etiqa Philippines.

The move toward an omnichannel customer service model aims to make Etiqa more responsive — allowing its clients to connect directly with the organization through an integrated platform, hotline, email, chatbot, messaging apps and social media channels.

"Our unified Smile PH 3.0 app ensures that we can support our customers — for both group health and individual life insurance — in every step of the process. This is our way of nurturing our relationships with them," stressed Rico Bautista, Etiqa Philippine president and chief executive officer.

Driving further toward digitalization, Etiqa also provides financial advisors with the training, systems and devices to make the process more seamless for the clients from the time they get introduced to insurance solutions. Financial advisors can now use Etiqa Sales Evolution (EaSE), which aims to provide a seamless digital customer experience and allows ease of access and comfort to both financial advisors and clients. With EaSE, financial advisors can interact with their clients freely and quickly, while clients can reach out to their advisors conveniently.

"The pandemic has undeniably recalibrated the way we do work, bringing digital solutions into the limelight. Right now, we are accelerating our efforts toward a paperless and seamless electronic exchange of data to maintain and improve the company's productivity during this time," said Mars Dailo, head of retail insurance at Etiqa Philippines.

Etiqa Philippines allows plan holders greater access to products via upgraded app

Etiqa PHL allows planholders greater access to products via upgraded app

BY RODERICK ABAD · NOVEMBER 17, 2022 · 2 MINUTE READ

ETIQA Life & General Assurance Philippines Inc. announced it has re-launched an upgraded version of its insurance application to give plan holders more access to information and services for both health and life insurance products.

The basic features of the app include inquiries, profile personalization and contact details updating with very specific transactional processes.

Specifically, individual life insurance clients can now manage their plans, view transaction history, request for e-policy and check fund values through the app.

For group health insurance clients, it helps facilitate patient access to its medical network of 30,000 doctors and 1,600 accredited hospitals and clinics nationwide; makes the process of filing medical reimbursement claims 50-percent faster; and shows coverage plus request letters of guarantee of clients and their dependents.

"Giving customers the power to view and avail their insurance benefits is essential," said Etiqa Philippines Senior Vice President Ariel Meneses. "Through the app, they can avail of our services swiftly and promptly."

Meneses, who is also head of the firm's operations and service excellence, believes they can become more responsive with this omni-channel customer service model as it directly connects to clients via an integrated platform, hotline, email, chatbot, messaging apps and social media channels.

Time is valuable

ETIQA Philippine President and CEO Rico T. Bautista said that the app "ensures that we can support our customers—for both group health and individual life insurance—in every step of the process," Bautista said.

"This is our way of nurturing our relationships with them," he added.

Bautista believes that leveraging technology can accelerate insurance market penetration in line with industry growth.

The firm claims its app's feature provides "seamless" digital experience and allows "ease of access and comfort." With the feature, financial advisors can interact with their clients freely and quickly, while the latter can reach out to them conveniently, the insurer said.

"Gone are the days of overwhelming the customer with pages of printed forms. Their time is valuable and with the pandemic, we also need to adjust fast to remote selling which has become the new normal. The pandemic has undeniably recalibrated the way we do work, bringing digital solutions into the limelight," said Etiqa Philippines Retail Insurance Head Marcelino Dailo Jr.

"Right now, we are accelerating our efforts towards a paperless and seamless electronic exchange of data to maintain and improve the company's productivity during this time," Dailo said.

Insuretech firm unveils Smile PH app 3.0 for insurance services

Newsbytes.PH ▪ November 15, 2022 ▪ 4:49 pm

Insuretech startup Etiqa Philippines recently relaunched an upgraded 3.0 version of the Smile PH app, where plan holders can access information and services for both health and life insurance products wherever and whenever needed.

The company said Filipinos are now more concerned about their health and protection, and want faster, more efficient, on-demand service the minute they need to seek medical attention and avail themselves of benefits from their insurance plans.

According to Etiqa, Smile PH 3.0 is a unified omnichannel app from the insuretech company. It integrates common basic features such as inquiries, profile personalization, and contact details updating with very specific transactional processes to give Etiqa clients a more seamless user experience.

Specifically, individual life insurance clients can now manage their insurance plans, view transaction history, request for e-policy, and check fund values through the app.

For group health insurance clients, the app helps facilitate patient access to its extensive medical network of 30,000 doctors and 1,600 accredited hospitals and clinics nationwide. It also makes the process of filing medical reimbursement claims 50% faster.

In addition, they can conveniently view their and their dependents' coverage plus request letters of guarantee.

"Giving customers the power to view and avail their insurance benefits is essential," Ariel Meneses, senior vice president and head of operations and service excellence at Etiqa said. "Through the unified Smile PH 3.0 app, which can be easily downloaded from Google Play Store and App Store, they can avail of our services swiftly and promptly."

The move toward an omnichannel customer service model aims to make Etiqa more responsive – allowing its clients to connect directly with the organization through an integrated platform, hotline, email, chatbot, messaging apps, and social media channels.

"Our unified Smile PH 3.0 app ensures that we can support our customers – for both group health and individual life insurance – in every step of the process. This is our way of nurturing our relationships with them," stressed Rico Bautista, Etiqa Philippine president and CEO, who believes that leveraging technology can accelerate insurance market penetration and the growth of the insurance industry – in parallel.

Driving further toward digitalization, Etiqa also provides financial advisors with the training, systems, and devices to make the process more seamless for the clients from the time they get introduced to insurance solutions.

Bisnis.com, JAKARTA – PT Aman Jelajah Internasional (AJI) bekerja sama dengan ETIQA meluncurkan produk asuransi perjalanan dengan klaim ganda bernama Amanyaman.

Direktur Aman Jelajah Internasional Budi Kusmawardi mengatakan berbeda dengan asuransi perjalanan biasa, pihaknya memberikan manfaat klaim atas biaya *re-booking ticket* bagi pemegang polis yang harus melakukan *reschedule* bilamana terjadi risiko-risiko perjalanan yang tidak diduga.

"Kami pastikan traveller akan terlindungi mulai dari sebelum perjalanan, selama perjalanan, bahkan hingga perjalanan telah berakhir tanpa rasa khawatir," kata Budi dalam konferensi pers di Jakarta, Senin (31/10/2022).

Dia mengatakan dengan kehadiran Amanyaman, keyakinan konsumer untuk melakukan perjalanan termasuk untuk berwisata dapat meningkat. Budi optimistis perusahaan dapat mengerek pertumbuhan premi lebih dari 100 persen pada 2023, meski tahun depan dunia diramal akan mengalami resesi yang bakal menggerus optimisme konsumen melakukan perjalanan.

"Tahun depan harapannya *recovery*-nya akan jauh lebih baik, karena semakin melakukan perjalanan pasti kebutuhan *travel insurance* akan banyak. Kami yakin kenaikan pendapatan premi kami harapkan bisa lebih dari 100 persen [pada 2023], karena saat ini *recovery* pandemi Covid-19 belum terlalu tinggi," tuturnya.

Produk asuransi perjalanan Amanyaman dijual dengan premi mulai dari Rp80.000 – Rp5,52 juta tergantung kategori. Saat ini dia mengatakan kontributor premi yang paling besar berasal untuk perjalanan paling jauh di luar Asia.

Ke depan, kata dia, produk Amanyaman juga akan diluncurkan pada rute penerbangan domestik hingga perjalanan haji/umrah.

"Haji/umrah saat ini belum, tapi kami sedang memprosesnya, tapi dalam waktu dekat kami bisa melayani perjalanan jemaah haji/umrah karena ada beberapa ketentuan," ujarnya.

Etiqa Indonesia, launches Amanyaman in collaboration with Aman Jelajah Gandeng

Aman Jelajah Gandeng Etiqa Luncurkan Amannyaman sebagai Asuransi Perjalanan

Selasa, 01 November 2022 | 12:31 WIB

Reporter: **Diki Mardiansyah** | Editor: **Yudho Winarto**

KONTAN.CO.ID - JAKARTA. PT Aman Jelajah Internasional (AJI) bekerja sama dengan Etiqa meluncurkan Amannyaman sebagai asuransi perjalanan di Indonesia dengan menawarkan keunggulan berupa *double protection*.

Direktur AJI Budi Kusmawardi mengatakan, kehadiran Amanyaman akan menjamin para traveller terlindungi mulai dari sebelum perjalanan, selama perjalanan, hingga perjalanan telah berakhir.

"Kami menghadirkan Amanyaman untuk masyarakat Indonesia sebagai asuransi perjalanan yang bisa membuat aman dan nyaman para traveller internasional," kata Budi dalam konferensi pers yang digelar di Jakarta, Senin (31/10).

Budi yakin, AJI bisa menggaet pertumbuhan premi lebih dari 100% pada tahun 2023.

Budi juga bilang, Amanyaman sedang mempersiapkan juga produk yang diluncurkan untuk melayani rute penerbangan domestik dan perjalanan haji atau umrah.

Sekadar infomasi, produk Amanyaman melayani perjalanan di Asia hingga seluruh dunia dengan menawarkan pilihan produk yang dapat dipilih sesuai kebutuhan, mulai dari Asia 50, Worldwide 50, Worldwide 100 dan Worldwide 250 dengan total perlindungan hingga Rp 3,75 miliar.

Serta produk Asia 50 plus, Worldwide 50 plus, Worldwide 100 plus dan Worldwide 250 plus yang sudah dilengkapi dengan proteksi COVID-19 hingga USD 32,500.

Produk asuransi perjalanan Amanyaman dijual dengan premi mulai dari Rp 80.000. Amanyaman sudah tersedia di berbagai travel agent konvensional dan dapat dinikmati oleh seluruh masyarakat Indonesia," pungkas Budi.
