## Etqa General Insurance retention at 33.7% raises credit risk on recoverables

AM Best expects pricing discipline and corrective actions even as underwriting pressure builds.

Etqa General Insurance's (EGIB) heavy reliance on outside partners to cover claims has left the company vulnerable to the financial health of its associates, AM Best said.

"In addition, EGIB has a high dependence on reinsurance, with a net retention ratio of 33.7% in 2024. As a result, the company's reinsurance recoverables are a large balance sheet item and have increased its exposure to credit risk," the agency said in a research note.

However, the insurer is expected to maintain its capital strength and operating performance over the medium term.

The ratings outlook is supported by Etqa General's strong balance sheet, with risk-adjusted capitalisation measured by Best's Capital Adequacy Ratio remaining at the strongest level at the end of 2024 and expected to stay there in the coming years.

AM Best expects the insurer to continue its moderate investment approach, balancing lower-risk assets such as cash, deposits and bonds with higher-risk holdings in equities and real estate.

AM Best expects operating performance to remain solid, supported by historically low net loss experience in key lines such as fire and personal accident, as well as ongoing reinsurance commission income.

Although net income declined in 2024 compared with 2023 due to higher claims in fire and motor insurance, investment income is expected to continue supporting overall earnings.

The agency also flagged that Malaysia's gradual liberalisation of motor and fire insurance pricing could put pressure on underwriting margins, but expects Etqa General to sustain pricing discipline and take corrective actions where needed.

## Built on Trust: How Etiqa Sets the Standard for Stability and Global Collaboration

By Gabriel | February 23, 2026 | No Comments | 3 Mins Read

📍 Etiqa, a leading provider of group medical and 📍 Insurance solutions in the Philippines, continues to strengthen market trust through financial credibility, operational excellence, and strategic global partnerships—guided by its purpose of making the world a better place through responsible and reliable protection.

In 2026, Etiqa achieved a significant milestone by securing more than 60 Certificates of Good Standing from hospitals and clinics nationwide. This recognition affirms the company's strong financial standing, timely settlements, and dependable partnerships—ensuring uninterrupted healthcare access and cashless treatment within provided limits for group medical clients across its network of over 1,500 partner providers. Hospitals trust Etiqa as a long-term partner because the company pays on time and consistently, reflecting its commitment to good corporate responsibility.

Etiqa's credibility is further strengthened by its exclusive partnership with Insurope, the leading multinational pooling network for employee benefits. As Insurope's sole partner in the Philippines, Etiqa provides clients with access to global coverage, pooled dividends, higher free cover limits, and experience refunds—positioning the company as a trusted gateway for multinational and regional accounts. Its consistent global rankings within the network—No. 6 in 2023 and No. 7 in 2024—underscore its ability to deliver world-class service with strong local relevance. Through Insurope's global pooling structure and risk-sharing framework, Etiqa enhances its financial resilience and claims-paying capacity, particularly for multinational clients requiring stability across markets.

Further reinforcing this financial strength, Etiqa was recently recognized by KRM Re<sup>®</sup> as a **2025 Top Partner** during awarding ceremonies held in February 2026 at Discovery Primea. KRM Re<sup>®</sup> is an international reinsurance intermediary that connects insurers with global reinsurers, helping strengthen risk capacity and financial resilience. This recognition underscores Etiqa's robust reinsurance support—enhancing its claims-paying ability even during large-scale or catastrophic events, and ensuring that policyholders remain protected when it matters most.

"This milestone reflects the trust our partners place in us and reinforces our belief that credibility and integrity are the foundations of sustainable growth," said Anthony M. Bernabe, President and CEO of 📍 Etiqa Philippines. "Our focus has always been on doing right by our partners and customers—by honoring our commitments, strengthening our systems, and delivering protection that truly makes a difference in people's lives."

Adding to this, Czarina Banal, First Vice President, Head of Operations and Excellence, said, "These achievements demonstrate our dedication to operational excellence and responsible partnerships. By maintaining strong relationships and consistently delivering on our promises, we ensure that our clients and partners can rely on Etiqa with confidence."

These achievements are complemented by operational milestones, including more than 100 consecutive days of zero hospital suspensions and recognition from institutions such as Makati Medical Center and De La Salle Medical and Health Sciences Institute for long-standing partnerships and contributions to the healthcare sector.

As a result, Etiqa's customer sentiment has significantly improved, indicating that its service enhancements are translating into real trust and loyalty.

As the industry moves forward, Etiqa continues to stand out as more than an insurance provider. It is a trusted ally—anchored in financial strength, operational discipline, and global collaboration—committed to protecting lives, empowering partners, and helping build a better world.
