Etiqa Launches Auto Assistance Location Tracker

Etiqa tenangkan pemandu ketika kecemasan

Auto Assistance Location Tracker bantu pemandu menjejak lokasi kru juruteknik secara langsung

KUALA LUMPUR

Etiqa melancarkan *Auto Assistance Location Tracker,* sebuah servis yang membolehkan para pemandu yang memerlukan bantuan teknikal untuk menjejak lokasi juruteknik dan trak tunda secara langsung.

Servis ini boleh digunakan melalui aplikasi mudah alih Etiqa Smile untuk melaporkan sebarang kerosakan kenderaan dan kemalangan, serta menjejak status permintaan kecemasan. Para pelanggan motor Etiqa yang mengalami kejadian seperti kehabisan bateri, tayar pancit, kehabisan petrol juga boleh menggunakan servis ini.

Untuk mengakses servis *Auto Assistance* ini, para pelanggan hanya perlu klik butang *Auto Assist Care* di dalam aplikasi Etiqa Smile, dan huraikan isu kecemasan kenderaan mereka kepada *Etiqa Auto Assist Care* (EAAC).

Pelanggan daripada pelopor motor insurans dan takaful lain juga boleh menggunakan servis ini secara berbayar.

Kemudian, para pelanggan perlu kongsikan lokasi mereka, dan EAAC akan menghantar satu pautan melalui SMS kepada mereka yang membolehkan mereka menjejak trak tunda atau juruteknik yang telah ditugaskan melalui peta digital.

Dalam kenyataan bersama Shahrul Azuan Mohamed, Ketua Pegawai Eksekutif Etiqa General Takaful Berhad dan Fukhairudin Mohd Yusof, Ketua Pegawai Eksekutif Etiqa General Insurance Berhad, mereka berkata: "Kami berbesar hati untuk menawarkan *Auto Assist Tracking Solution* untuk para pelanggan kami. Kami faham akan keresahan yang dirasai oleh para pemandu apabila diduga dengan situasi yang memerlukan bantuan kecemasan teknikal. Justeru kami perkenalkan penyelesaian ini,"

Etiqa Launches Auto Assistance Location Tracker

ETIQA LAUNCHES AUTO ASSISTANCE LOCATION TRACKER

STARPICKS

Saturday, 25 Jun 2022

Much like a rainy day fund, it's best to have help readily available with roadside assistance when you really need it.

Real-time roadside assistance to ease customer anxieties

HAVING a flat tyre is not only an annoyance, it can also be dangerous – especially when you're waiting by the roadside for help.

It can become a difficult situation if you are not able to fix yourself, like a simple tyre change.

Perhaps you are not the type of person who keeps extra tools in the car boot in case of emergencies.

Worst still, if your engine starts putting out smoke and you have to wait for your dedicated technician to come and check on your car, further increasing the amount of time it takes to get you the help you need – not to mention the emotional distress you would be facing.

To ease the worries of road users everywhere, Etiqa launched the industry's first Auto Assistance Location Tracker on June 24 this year to bring peace of mind to customers who need roadside assistance, as it is able to track the location of technicians or tow trucks in real-time.

This service is currently available via the Etiqa Smile mobile app, which also allows customers to report a vehicle incident, breakdown or accident and track the status of emergency (SOS) requests.

You can make a report on incidents ranging from having a flat battery, a punctured tyre and even if you are out of fuel.

To access this Auto Assistance solution, customers simply need to tap the Auto Assist Care button on Etiqa's Smile app and proceed to describe the issue that you are experiencing with your vehicle to the Etiqa Auto Assist Care (EAAC) centre.

Customers can then pinpoint their current location and will be connected with an EAAC consultant who will send an SMS link to the customer.

By doing so, you will be able to track the tow truck or technician that has been assigned via a live map.

Etiqa General Insurance Bhd CEO Fukhairudin Mohd Yusof notes that accessibility is a key factor in the development of this real-time roadside assistance solution.

A joint statement between Etiqa General Takaful Bhd chief executive officer (CEO) Shahrul Azuan Mohamed and Etiqa General Insurance Bhd CEO Fukhairudin Mohd Yusof said, "We are pleased to offer the Auto Assist Tracking solution for our customers.

"We understand the nerves that people might feel when being confronted with a situation that requires roadside assistance.

"That is why we have come up with a fast and easy solution, whereby customers just have to tap on an app or scan a QR code to request for assistance.

"Then they can have peace of mind knowing exactly where the technicians or tow trucks are and when they may arrive."

According to Etiqa General Takaful Bhd CEO Shahrul Azuan Mohamed, roadside services could be costly without a plan, especially if your car breaks down far from the nearest motor workshop.

The Auto Assistance Location Tracker is a solution available to all customers who have an Etiqa motor policy or certificate, as well as customers of other motor insurance or takaful providers for a fee, making sure all road users have an avenue to turn to should they need roadside assistance.

The idea behind the Auto Assistance Location Tracker stems from Etiqa's commitment to be fast and easy to deal with for its customers.

Just as having this solution will ease customers' anxieties about potential car issues on the road, Etiqa is constantly on the lookout to close any gaps in their service levels and product offerings for the benefit of Malaysians as a whole.

To that end, Etiqa tracks over 100 metrics regularly to see if turn around times can be improved and if complaints can be addressed quickly.

Some of the other innovative and game changing products introduced include the first mental illness coverage in Malaysia, Etiqa's recent environmental, social and governance-linked investment products, online road tax renewal with insurance renewal and cashless overseas hospital admissions.

Etiqa will be launching more unique or first-in-the market products in the coming months.

Customers can contact the EAAC via Quick Response (QR) code, WhatsApp, Etiqa live chat at www.eti.qa/livechat or the Etiqa Careline at 1-800-88-6491 in order to get a similar service.

Etiqa introduces Byke, Actyve insurance plans to protect cyclists

Etiqa perkenal insurans lindungi basikal, peralatan

Oleh MUHAMAD AIMY AHMAD
ekonomiutusan@mediamulia.com.my

KOTA TINGGI: Etiqa General Insurans Berhad (EGIB) melangkah setapak lagi apabila melancarkan insurans basikal pertamanya, *All Risk-Byke* yang direka khas bagi memberi perlindungan terhadap peralatan-peralatan basikal daripada kecurian.

Ketua Pegawai Eksekutif EGIB, Fukhairudin Mohd. Yusof berkata, insurans yang sudah boleh dilanggan orang ramai itu turut melindungi kerosakan dan kerugian akibat kemalangan sehingga nilai perlindungan RM60,000.

Katanya, melalui produk itu, basikal serta bahagiannya yang berusia tidak melebihi tujuh tahun akan dilindungi daripada sebarang kejadian terbabit dengan premium serendah RM65.

"Terdapat peningkatan signifikan dalam bilangan rakyat Malaysia yang menjadikan aktiviti berbasikal sebagai gaya hidup sihat mereka. Melihat fenomena itu, EGIB mengambil peluang untuk menawarkan perlindungan kepada komuniti itu.

"Tambahan pula, sukan tersebut yang bersifat sifar pelepasan karbon selari dengan visi korporat kami iaitu *making the world a better place*," katanya ketika pelancaran *All Risk-Byke* sempena pengajuran L'Etape Malaysia oleh Tour de France di Desaru Coast, baru-baru ini.

FUKHAIRUDIN Mohd. Yusof (kiri) bersama Ketua Wilayah YAS Malaysia, Zaryl Tan menunjukkan produk insurans All Risk-Byke yang boleh diperoleh melalui platform YAS pada pelancaran di Desaru Coast, Kota Tinggi, Johor.

Fukhairudin berkata, EGIB bekerjasama dengan YAS bagi memasarkan produk berkenaan memandangkan entiti itu mempunyai jenama yang kukuh dalam kalangan komuniti aktif di negara ini.

Tambahnya, penggabungan kepakaran antara dua pihak itu bertujuan untuk memangkin inovasi produk dan memacu rangkuman kewangan dalam pasaran Malaysia.

"EGIB dan YAS juga memperkenalkan insurans kemalangan peribadi iaitu *Actyve* yang menggunakan sistem *pay as you use* di mana perlindungan diberikan berdasarkan aktiviti pengguna yang dilindungi.

"Terdapat peningkatan signifikan dalam bilangan rakyat Malaysia yang menjadikan aktiviti berbasikal sebagai gaya hidup sihat mereka. Melihat fenomena itu, EGIB mengambil peluang untuk menawarkan perlindungan kepada komuniti itu.

"Tambahan pula, sukan tersebut yang bersifat sifar pelepasan karbon selari dengan visi korporat kami iaitu *making the world a better place*," katanya ketika pelancaran *All Risk-Byke* sempena pengajuran L'Etape Malaysia oleh Tour de France di Desaru Coast, baru-baru ini.

Fukhairudin berkata, EGIB bekerjasama dengan YAS bagi memasarkan produk berkenaan memandangkan entiti itu mempunyai jenama yang kukuh dalam kalangan komuniti aktif di negara ini.

Tambahnya, penggabungan kepakaran antara dua pihak itu bertujuan untuk memangkin inovasi produk dan memacu rangkuman kewangan dalam pasaran Malaysia.

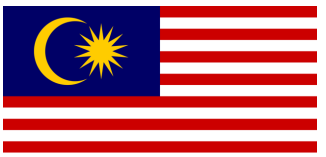

"Bagi *All Risk-Byke,* ia sudah boleh didapati melalui laman sesawang YAS Malaysia bermula Sabtu lalu dan melalui aplikasi mudah alihnya pada Julai ini dengan mudah kerana ia bertepatan dengan komitmen Etiqa untuk memberikan perkhidmatan yang pantas," katanya.

Sementara itu, Ketua Pegawai Eksekutif YAS, Andy Ann berkata, kolaborasi itu membolehkan pihaknya mengambil satu langkah besar dalam merealisasikan perlindungan insurans tanpa had masa dan lokasi.

"Ia juga menguatkan rangkaian pengedaran YAS yang merupakan teras kepada strategi Asia Tenggara syarikat kami iaitu membina produk insurans yang mesra pengguna. Kami percaya produk berinovasi Etiqa dan kekukuhan kewangan mereka akan meningkatkan nilai perniagaan kami," katanya.

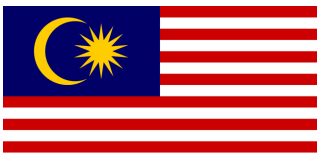

Pada perlumbaan basikal amatur L'Etape Malaysia oleh Tour de France yang menghimpunkan lebih 4,700 pelumba, *All Risk-Byke* turut melindungi kesemua peserta berkenaan yang berkayuh sejauh 60 dan 140 kilometer pada acara itu. – UTUSAN

Etiqa PH's portal offers shorter turnaround time for Letter of Guarantee requests

Published June 16, 2022, 6:57 PM
by Edgard Hilario

Etiqa Philippines has launched its Letter of Guarantee Portal's 3-step process to reduce the turnaround time for issuing Letters of Guarantee (LOG) from 24 hours to four hours now, with a daily cut-off time of 2:00pm on weekdays. This initiative is aimed at processing Letters of Guarantee in a timely manner, arising from a surge of demand for health care services and ensuing delays experienced by the Philippines' insurance industry in processing these letters during the COVID-19 pandemic.

Etiqa Philippines' Medical Director Dra. Maria Luisa Mamaril said, "The pandemic has fast-tracked the digitalization of industries and paved the way for businesses to adopt digital strategies. This transition also significantly transformed customer expectations, including in the Philippines, as many are growing accustomed to digital interactions. Through Etiqa's new LOG Portal's 3-step process, we hope that this service will provide added convenience and ensure that customers receive the required health service in the quickest time."

Easy three-step process

The Etiqa LOG Portal's 3-step process eliminates the need for customers to call Etiqa's hotline to request a Letter of Guarantee. To use the Etiqa LOG Portal's 3-step process, customers will need to access the portal via a QR code or URL found on Etiqa Philippines' Facebook page.

Next, they provide basic information such as their name, Etiqa Philippines card number, name of company, email address, type of request, date of availability, name of facility, and doctor's request form, if applicable.

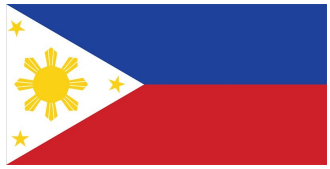

Once the step above has been completed, a confirmation email on the request will be sent to the customer, indicating that the request is now being processed.

Customers will then receive the Letter of Guarantee that will be sent to their email.

"This is a new era where customers are actively looking for user-friendly, simple, and efficient services. We are committed to enhancing our services to give them a richer digital experience that addresses their concerns about insurance claims and Letters of Guarantee." said Mamaril.
